Summary

Aspiring Frontend Developer with a keen interest in crafting compelling web experiences. Leveraging a solid logical foundation and four years of IT experience as a Tech Support Engineer, I am dedicated to transitioning seamlessly into a frontend developer role. Skilled in React, HTML, CSS, and JavaScript, I am poised to create user-friendly websites and applications. Actively seeking opportunities to contribute to innovative projects, I am committed to ongoing skill development and delivering high-quality digital solutions

Skills

HTML, CSS, JavaScript, React, Redux, React Query, Tailwind CSS, Git and GitHub, Bootstrap, Communication skills, Teamwork, Adaptability, Problem Solving, Continuous Learning

Projects

Travel Town Holidays Website

- Crafted a travel website using HTML, CSS, Bootstrap, Express.js, Node.js, and MongoDB.
- Revamped the site using React.js and Styled Components for improved performance and maintainability.

SES Assist Web App

- Strategically identified and resolved time-consuming tasks within the networking team.
- Designed and implemented a web application using HTML, CSS, and JavaScript to streamline repetitive tasks.

Recipe DB

- Developed and launched a Recipe Database web app using React and React Query.
- Engineered a responsive UI and integrated React Query for real-time updates.

Assiduus Dashboard

- Executed an assignment project for Assiduus, delivering an interactive dashboard with React, D3 JS, and Tailwind CSS.

YouTube Clone

- Created the YouTube clone app using React, Material UI and Rapid API

Experience

AT&T Communication Services | Bengaluru, Karnataka
Staff Associate, Tech Support | 08/2019 - Present
